Excellent Career Opportunities in Financial Technology & Services for Software Talent!

Euronet Worldwide (www.euronetworldwide.com, NASDAQ: **EEFT**), is one of the leading global financial technology solutions and payments providers with the mission:

"To make access to payments convenient and affordable for global consumers".

Euronet Software Solutions seek to employ competent **Software Talent** who will work on the design and development of cutting-edge real-time payments systems joining our highly qualified product development teams. Learn more about our software products suite here.

The successful candidates will be based in **Athens** or **Belgrade** or have the opportunity to join our European Development Center in Germany (**Munich**). They must demonstrate strong technical and programming skills, gained through **a minimum of 3 years** proven experience.

Current openings include:

C++ Developers

Job Type: Full-time, permanent

Your daily activities:

- Understand business requirements and realize it into technical solution.
- Design, develop, and maintain efficient, reusable, and reliable C++ code.
- Implement optimized and quality code.
- Identify bottlenecks and bugs, and devise solutions to these problems.
- Help to maintain the code quality, organization and automatization.
- Review code developed by other team members.
- Write functional test cases to the regression framework.

What you need to be successful:

- Hands on C/C++ development experience and exposure to the full software development life cycle.
- Hands on experience and thorough knowledge in STL, BOOST understanding of data structures and algorithms.
- Expertise in programming under Windows/UNIX/Linux.
- Working knowledge of development tools such as debuggers, profilers and tracing utilities.
- Experience with IPC including socket programming.
- Hands on multithreading experience, including race conditions, deadlocks, debugging, etc.

General requirements include:

- Excellent problem solving skills.
- Willingness to learn.
- Team spirit.
- Very good knowledge of English (oral and writing skills).

Our assessment process includes a number of interviews and technical tests.

Only shortlisted candidates will be contacted.

If you think you fit the profile described and you are interested in the position, please send your CV and cover letter to Vana Mechleri (vmechleri@euronetworldwide.com).
