

Seize your future!

ENDEGO sp. za.a. is a cross-industry end-to-end engineering services provider, headquartered in Cracow, with a further 6 sites in Poland and 2 abroad (in Germany and the USA), with strong international sales footprint, namely in Europe, North America and Asia.

We typically operate in the automotive, off-highway, railway, aerospace, marine, home appliances and consumer electronics industries.

In the context of our rapid expansion and ever increasing project needs, we are looking to form a further ENDEGO site in Heraklion, Greece, with a strong focus on software development.

We offer an excellent opportunity for the candidates

- to join a highly dynamic and rapidly growing international company with solid financial performance
- permanent employment or B2B contract, upon a 3-month probation period
- training and career development
- exciting projects with renowned customers
- competitive remuneration package
- flat management structure
- flexible working hours
- flexible working location
- inclusive and friendly working environment
- employer of choice
